

## FITNESS SERIES - National fitness rubber jogging Track

### PRODUCT TYPE

Suitable for national fitness. It is the best choice for people to walk and run daily.

### DIMENSIONS

LENGTH	WIDTH	THICKNESS	WEIGHT	ROLL HEIGHT	ROLL WIDTH
20.5M	1.22M	10MM	12.5KGS/M <sup>2</sup>	1.22M	0.7M

### COLOR

Other special colors need to be customized according to Pantone color card

### PRODUCT DESCRIPTION

High-density elastic wear-resistant non-slip surface layer, good supporting force and durable

The elastic bottom layer carefully created by closed-cell foaming air chamber technology ensures the best shock absorption performance and the best grip in turning and sudden steering

The entire sports ground has uniform thickness, consistent elastic response and foot feel, comfortable and safe

## PRODUCT ADVANTAGES

Natural environmental protection rubber

Corn texture anti skid, stable and strong friction

High flame-retardant nano-clay, fireproof V0

Bubble structure makes good resilience and water vapor resistance

One-piece molding, double density, no seams

**APPLICATIONS** National jogging Track, park / community path, multi-functional hall, exhibition room floor, overpass, pedestrian channel floor

## SPECIFICATION

Item	Test Methods	Unit	Requirements	Result
Thickness	GB/T22517.6-2011	mm	>8	11
Force Reduction(0 °C)	GB36246-2018D	%	20-50	21.3
Force Reduction(23°C)			20-50	23.5
Force Reduction(50°C)			20-50	24.1
Vertical Deformation	GB36246-2018E	mm	0.6-3.0	1.2
Slip resistant	GB36246-2018F	BPN 20°C	80-110	101.8
Tensile strength	GB/T10654-2001	Mpa	>0.5	0.78
Elongation at break	GB/T10654-2001	%	>40	236
Fire resistance	GB/T36246-2018	Degree	1	1
